

Everyday Cleaning Cloths

Strong, durable and highly absorbent cloths that support colour-coded cleaning to help reduce cross-contamination

Cleanall Cleaning Cloths

Designed for general cleaning tasks

Strong, super-absorbent, long-lasting cleaning cloths. Able to absorb five times their own weight in liquid.

Reusable and washable

The cloths are fully washable and designed for repeated use, making them longer-lasting, reducing waste and lowering cost.

Multi-functional

Suitable for use on a variety of surfaces/areas such as bathrooms, washrooms, ward areas, offices, catering departments, kitchens, patient areas and isolation areas.

Cost-effective

Our wide range of multi-purpose cleaning cloths are delivered to you at great value, everyday prices.

Suitable for most surfaces

The cloths' soft texture doesn't damage surfaces and is safe to use on most general fixtures and fittings.

Super-absorbent

Our super-absorbent cloths rapidly soak up spillages. Their tear-resistant structure is designed to absorb more than five times their own weight in liquid.

Wet or dry surface cleaning

Ideal for using both wet or dry, with wet use recommended for heavy soiling.

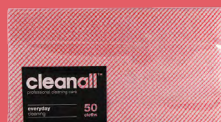

Reduces the risk of cross-contamination

The cloths' colour-coded system reduces the risk of cross-contamination.

Conforming to the colour coding scheme, the cloths are available in a range of colours and can be used for area-specific tasks, helping to reduce the risk of cross-contamination from clinical and patient areas into domestic areas, such as washrooms and kitchens.

RED

Toilets, bathrooms and dirty utility areas

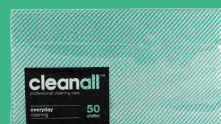

BLUE

General cleaning

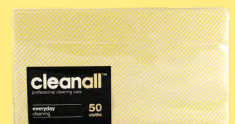

GREEN

Food service and food preparation areas

YELLOW

Infectious and isolation areas
