SAFETY DATA SHEET

Clinell Contiplan 3-in-1 Cream Cloths

According to Regulation (EU) No 2020/878 & Regulation (EC) No 1272/2008

Issue Date: 8th April 2025 Version Number: 3

SECTION 1: Identification of the substance/mixture and company/undertaking

1.1 Product Identifier

Product Name: Clinell Contiplan 3-in-1 Cream Cloths

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified Use: Wipes for the prevention of moisture-associated skin damage, including incontinence-associated dermatitis and dry skin.

1.3 Details of the supplier of the safety data sheet

Supplier:
GAMA Healthcare Ltd
The Maylands Building
Maylands Avenue, Hemel Hempstead Industrial Estate
Hemel Hempstead
HP2 7TG
United Kingdom
Tel: +44 (0) 207 993 0030
Email: info@gamahealthcare.com

Authorised Representative:
Emergo Europe BV
Westervoortsedijk 60
6827 AT Arnhem
The Netherlands
Tel: +31 (0) 70 345 8570

1.4 Emergency telephone number

Tel: +44 (0) 207 9930 035
Monday-Thursday, 9-5pm; Friday, 9-4pm (excluding UK bank holidays)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

This product is a medical device as defined in Regulation (EU) 2017/745, which are invasive or used in direct physical contact with the human body, and therefore is exempt from the requirements of classification and labelling according to Regulation (EC) No. 1272/2008 (CLP; Article 1, paragraph 5).

2.2 Label Elements

Signal word: Not applicable

Hazard statements: Not applicable

SDS 79 Version: 3.0
Revision: 10-Apr-2025

UNCONTROLLED COPY WHEN PRINTED
Status at 30-Sep-2025: Published

Precautionary statements Not applicable

2.3 Other hazards

For external use only. Avoid contact with eyes and mouth. Discontinue use if irritation develops. If irritation persists for more than 72 hours seek medical advice. Store in a cool dry place.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Declarable components	Conc. (%)	EC No.	CAS No.	Classification according to Regulation (EC) No. 1272/2008	Specific concentration limits according to Regulation (EC) No 1272/2008
Dimethicone	≤ 4.0		63148-62-9	Aquatic Chronic 4: H413	-
Glycerin	≤ 1.0	200-289-5	56-81-5	Eye Irrit. 2: H319	-
Benzalkonium chloride	≤ 0.05	270-325-2	68424-85-1	Acute Tox 4: H302, H312; Skin Corr 1B; H314; Aquatic Acute 1: H400	-

Although individual ingredients may be classified as hazardous, the levels contained in this mixture are not considered to be hazardous.

Parraffinum liquidum 6%
Other additives <8%
Water <81%

Full list of Hazard Statements is available in Section 16

SECTION 4: First aid measures

4.1 Description of first aid measures

Inhalation
For industrial use of the liquid, if adverse effects (e.g. irritation of the airways) occur, remove patient from exposure and give fresh air and rest. If the patient continues to feel unwell, obtain medical attention.

Skin
For industrial use of the liquid, remove contaminated clothing and wash affected area with soap and water. If irritation occurs, seek medical attention. Launder contaminated clothing before re-use.

SDS 79 Version: 3.0
Revision: 10-Apr-2025

UNCONTROLLED COPY WHEN PRINTED
Status at 30-Sep-2025: Published

Eye
For industrial use of the liquid, in case of contact with eyes, irrigate with water, occasionally lifting eyelids. Seek prompt medical attention.

Ingestion
For industrial use of the liquid, if swallowed, wash out mouth thoroughly and give water to drink. Seek medical attention if significant amounts (e.g. more than a teaspoonful) are ingested, or for any symptoms occurring after ingestion. Do not induce vomiting, unless instructed by medical personnel.

4.2 Most important symptoms and effects, both acute and delayed
May cause eye irritation. Seek medical attention if swallowed.

4.3 Indication of any immediate medical attention and special treatment needed
Treat symptoms as they occur.

SECTION 5: Firefighting measures

5.1 Extinguishing media
Water spray, carbon dioxide, dry chemical and foam are compatible with the product. Remove containers from fire or cool them with water.

5.2 Special hazards arising from the substance of mixture
When heated sufficiently, product may decompose to form smoke and toxic fumes, gases or vapours.

5.3 Advice for firefighters
Fire fighters should wear an approved self-contained breathing apparatus and full protective clothing.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
For industrial spills of the liquid, ensure full personal protection is worn (see Section 8). Keep unauthorised personnel from the spillage area.

6.2 Environmental precautions
Prevent leakage of product into water-courses or drainage system by diking with sand or other absorbent material. Contact authorities, water company, and waste-water treatment plant as appropriate if significant contamination occurs.

6.3 Methods and material for containment and cleaning up
Stop the source of leak or release. Clean up spill as soon as possible. Small spills can be mopped up with dry cloth. Collect larger spill using techniques such as sorbent

SDS 79 Version: 3.0
Revision: 10-Apr-2025

UNCONTROLLED COPY WHEN PRINTED
Status at 30-Sep-2025: Published

materials or pumping. Place material in suitable container for disposal in accordance with local and national regulations. Wash contaminated surfaces with water and collect washings for safe disposal. Follow prescribed procedures for responding to large spills and reporting to appropriate authorities.

6.4 Reference to other sections

For recommended personal protective equipment see Section 8.
For disposal considerations see Section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

For industrial use of the liquid, avoid contact with skin and eyes. Wear protective clothing as in Section 8. Good general ventilation is recommended.

7.2 Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated place, away from direct sunlight. Do not allow to freeze. Keep container closed when not in use.

7.3 Specific end use

Identified in Section 1.2

SECTION 8: Exposure controls/personal protection

8.1 Control Parameters

EU Limit None

National Limit

	Limit Value – Eight Hours		Limit Value – Short term *	
Glycerol mist				
Country	**ppm**	**mg/m³**	**ppm**	**mg/m³**
United Kingdom		10		

* Short term is 15 minutes unless stated otherwise

8.2 Exposure controls

Engineering controls
For industrial use of the liquid, good general ventilation is recommended.

Personal protective equipment
Product is designed for skin use and is dermatologically tested.

SDS 79 Version: 3.0
Revision: 10-Apr-2025

UNCONTROLLED COPY WHEN PRINTED
Status at 30-Sep-2025: Published

For professional use of the liquid, the need for personal protective equipment should be based on a workplace risk assessment for the particular use. Prevent skin and eye contact by wearing chemical resistant gloves (e.g. rubber, neoprene, PVC) and safety goggles. Where more extensive contact may occur, wear suitable protective clothing (e.g. apron, sleeves, boots).
PPE should be to European (EN) standards. Consult manufacturers concerning breakthrough times.

Environmental exposure controls
Not available.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	Moist non-woven wipe
Colour	White wipe with a clear, colourless eluate
Odour	Slight green tea perfume
Melting/freezing point	ca. 0°C
Initial boiling point/range	ca. 100°C
Flammability	Not determined: water-based product
Lower and upper explosion limit	Not determined: water-based product
Flash point	Not determined: water-based product
Auto-ignition temperature	Not determined: water-based product
Decomposition temperature	Not determined: water-based product
pH	ca. 7
Kinematic viscosity	Not determined: water-based product
Solubility	Soluble in water
Partition coefficient n-octanol/water	No data available
Vapour pressure	No data available

SDS 79 Version: 3.0
Revision: 10-Apr-2025

UNCONTROLLED COPY WHEN PRINTED
Status at 30-Sep-2025: Published

Density and/or relative density	Not determined: water-based product
Relative vapour density	Not determined: water-based product
Particle characteristics	Not applicable

9.2.1 Other information Not available

9.2.2 Other safety characteristics Not available

SECTION 10: Stability and reactivity

10.1 Reactivity
None known

10.2 Chemical stability
Stable under recommended storage and handling conditions.

10.3 Possibility of hazardous reactions
None known

10.4 Conditions to avoid
None

10.5 Incompatible materials
Oxidising agents. Contact with anionic substances will reduce effectiveness of the product.

10.6 Hazardous decomposition products
None known.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity
Not classified as harmful by ingestion or skin contact. Inhalation may cause drowsiness or dizziness. Ingestion of liquid may cause intoxication.

Skin corrosion/irritation
Not likely to cause dermal irritation.

Serious eye damage/irritation
May cause eye irritation. Prolonged or repeat exposure may cause skin irritation.

SDS 79 Version: 3.0
Revision: 10-Apr-2025

UNCONTROLLED COPY WHEN PRINTED
Status at 30-Sep-2025: Published

Respiratory or skin sensitisation
Not likely to cause sensitisation.

Germ cell mutagenicity
No data available

Carcinogenicity
No data available

Reproductive toxicity
Not available

STOT-single exposure
No data available

STOT-repeated exposure
No data available

Aspiration hazards
Inhalation of vapours or liquid may cause drowsiness or dizziness.

11.2 Information on other hazard classes which relates to endocrine disrupting properties

Endocrine disrupting properties
Not available

Other information
Not applicable

SECTION 12: Ecological information

12.1 Toxicity
Contains substances (dimethicone and benzalkonium chloride) which can be toxic to aquatic organisms.

12.2 Persistence and degradability
No information available

12.3 Bioaccumulative potential
No information available

12.4 Mobility in soil
No information available

SDS 79 Version: 3.0
Revision: 10-Apr-2025

UNCONTROLLED COPY WHEN PRINTED
Status at 30-Sep-2025: Published

12.5 Results of PBT and vPvB assessment
No information available

12.6 Endocrine disrupting properties
No information available

12.7 Other adverse effects
No information available

SECTION 13: Disposal considerations

13.1 Waste treatment methods
This product may be disposed of via the landfill, or by incineration. Disposal must be in accordance with current national and local regulations.
In industry, chemical residues generally count as special waste, and their disposal may be regulated in the EC member countries through corresponding laws and regulations. We recommend that you contact either the authorities or approved waste disposal companies who will advise you on how to dispose of special waste.
The wipes are not flushable or maceratable.

SECTION 14: Transport Information

Not classified for transport.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the mixture
Classification and Labelling of Substances and Preparation Dangerous for Supply. Workplace Exposure Limits EH40. Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC and amending Regulation (EC) No 1907/2006 with amendments.

15.2 Chemical safety assessment
Not available

SECTION 16: Other Information

Basis of classification
The mixture is self-classified on the basis of available information on the ingredients

List of hazard statements

SDS 79 Version: 3.0
Revision: 10-Apr-2025

UNCONTROLLED COPY WHEN PRINTED
Status at 30-Sep-2025: Published

H302: harmful if swallowed
H312: harmful in contact with skin
H314: causes severe skin burns and eye damage
H319: causes serious eye irritation
H400: very toxic to aquatic life
H413: May cause long lasting harmful effects to aquatic life

This safety data sheet was compiled using the ECHA Guidance on the compilation of Safety Data Sheets, Version 4.0, December 2020.
