SAFETY DATA SHEET
Clinell Detergent Wipes

Issue Date: 10th July 2026 Version Number: 4

SECTION 1: Identification of the substance/mixture and company/undertaking

Product Identifier

Product Name: Clinell Detergent Wipes

Recommended use of the chemical and restrictions on use

Identified Use: Cleaning wipes

Details of manufacturer or importer

Australian distributor:
GAMA Healthcare Australia Pty. Ltd.
Suite 1, 33-37 Duerdin Street
Notting Hill
Victoria 3168
Australia
Tel: +61 3 9769 6600
Email: info@gamahealthcare.com.au

Manufacturer:
GAMA Healthcare Ltd
The Maylands Building
Maylands Avenue, Hemel Hempstead Industrial Estate
Hemel Hempstead
Hertfordshire
HP2 7TG
Tel: +44 (0) 207 993 0030

Emergency phone number

Tel: +61 3 9769 6600
Monday – Thursday, 9-5pm; Friday, 9-4pm (excluding bank holidays)

SECTION 2: Hazards identification

Not classified as hazardous to health or environment by the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia critera.

SECTION 3: Composition and information on ingredients

Mixtures

Declarable components	Conc. (%)	EC No.	CAS No.	GHS Classification
2-phenoxyethanol	≤0.5	204-589-7	122-99-6	Acute Toxicity (Category 4) Eye Irritation (Category 2)
Caprylyl/Capryl Glucoside	0.2-0.5	500-220-1	68515-73-1	Eye Damage (Category 1)
Lauryl Polyglucose	0.1-0.3	600-975-8	110615-47-9	Skin Irritation (Category 2) Eye Damage (Category 1)
Butoxydiglycol	0.1-0.2	203-961-6	112-34-5	Eye Irritation (Category 2)

ASDS 08 Version: 4.0

SECTION 4: First aid measures

Description of necessary first aid measures

Inhalation
Acute effects following exposure to this product via the inhalation route are not anticipated during normal handling and use.

Skin
This product is not intended for use on skin. No adverse effects are anticipated during normal handling and use.

Eye
Avoid contact with eyes. Should the product come into contact with eyes, rinse well immediately. If irritation occurs, stop using and consult a doctor when necessary.

Ingestion
This product is for external use only and should be kept away from children. No adverse effects are anticipated from this formulation via the oral route during normal handling and use.

Symptoms caused by exposure

May cause eye irritation.

Medical attention and special treatment

Treat symptoms as they occur.

SECTION 5: Firefighting measures

Suitable extinguishing equipment

Water spray, carbon dioxide, dry chemical and foam are compatible with the product. Remove containers from fire or cool them with water.

Specific hazards arising from the chemical

This product is water based and is therefore not flammable or explosive.

Special protective equipment and precautions for firefighters

Fire fighters should wear an approved self-contained breathing apparatus and full protective clothing.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

None anticipated or expected to be required.

ASDS 08 Version: 4.0
Revision: 14-Jul-2026

UNCONTROLLED COPY WHEN PRINTED
Status at 22-Jul-2026: Published

Environmental precautions

None anticipated or expected to be required.

Methods and material for containment and cleaning up

Not anticipated or expected to be required.

SECTION 7: Handling and storage

Precautions for safe handling

Not anticipated or expected to be required.

Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated place, away from direct sunlight. Do not allow to freeze. Keep container closed when not in use.

SECTION 8: Exposure controls and personal protection

Exposure control measures

Biological Monitoring
None anticipated or expected to be required.

Control Banding
None anticipated or expected to be required.

Engineering controls
None anticipated or expected to be required.

Individual protection measures
For professional use of this product, the need for personal protective equipment should be based on a workplace risk assessment

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance	White wipe with a clear, colourless eluate
Odour	Characteristic odour
Odour threshold	No data available
pH	4.5 - 7

ASDS 08 Version: 4.0
Revision: 14-Jul-2026

UNCONTROLLED COPY WHEN PRINTED
Status at 22-Jul-2026: Published

Melting/freezing point	ca. 0°C
Initial boiling point/range	ca. 100°C
Flash point	Not determined: water-based product
Evaporation rate	Not determined: water-based product
Flammability	Not determined: water-based product
Lower and upper explosion limit	Not determined: water-based product
Vapour pressure	No data available
Relative vapour density	Not determined: water-based product
Density and/or relative density	Not determined: water-based product
Solubility	Soluble in water
Partition coefficient n-octanol/water	No data available
Auto-ignition temperature	Not determined: water-based product
Decomposition temperature	Not determined: water-based product
Kinematic viscosity	Not determined: water-based product
Specific heat value	No data available
Saturated vapour concentration	No data available
Release of invisible flammable vapours and gases	No data available
Particle size	No data available
Size distribution	No data available

SECTION 10: Stability and reactivity

Reactivity

Not available

Chemical stability

ASDS 08 Version: 4.0
Revision: 14-Jul-2026

UNCONTROLLED COPY WHEN PRINTED
Status at 22-Jul-2026: Published

The product is considered stable under normal ambient storage and handling conditions or temperature and pressure.

Possibility of hazardous reactions
No hazardous reactions anticipated

Conditions to avoid
Light and excessive heat

Incompatible materials
Oxidising agents. Contact with anionic substance will reduce effectiveness of the product.

Hazardous decomposition products
None known.

SECTION 11: Toxicological information

Information on possible routes of exposure
No data available

Early onset symptoms related to exposure
Irritation to eyes

Delayed health effects from exposure
No data available

Exposure levels and health effects
No data available

Interactive effects
No data available

When specific chemical data is not available
No data available

Mixtures of chemicals
No data available

Other information
No data available

SECTION 12: Ecological information

Ecotoxicity
No information available

ASDS 08 Version: 4.0
Revision: 14-Jul-2026

UNCONTROLLED COPY WHEN PRINTED
Status at 22-Jul-2026: Published

Persistence and degradability
No information available

Bioaccumulative potential
Not available

Mobility soil
Not available

Other adverse effects
Not available

SECTION 13: Disposal considerations

Waste treatment methods
This product may be disposed of via landfill or by incineration. Disposal must be in accordance with current national and local regulations. Refer to State/Territory Land Waste Management Authorities if applicable.

In the healthcare industry, chemical residues, biocides and infectious substances generated as a result of medical and nursing care may require classification as hazardous waste.

The wipes are not flushable or maceratable.

SECTION 14: Transport Information

Not classified for transport.

SECTION 15: Regulatory information

Safety, health and environmental regulations

This product is classified under the Globally Harmonised System of Classification, Labelling of chemicals (GHS). It is not considered to be hazardous.

SECTION 16: Other Information

Basis of classification
The mixture is self-classified on the basis of available information on the ingredients

List of hazard statements:

ASDS 08 Version: 4.0
Revision: 14-Jul-2026

UNCONTROLLED COPY WHEN PRINTED
Status at 22-Jul-2026: Published

H302: Harmful if swallowed
H315: Causes skin irritation
H318: Causes serious eye damage
H319: Causes serious eye irritation
